

Petrova, Radolina R.P.

Checkpoint 15 Week 17 - Bart 11-01-2023

Rabeling, Bart B.T. (Teacher) 2 days ago
Good job on the unit tests! Very clear and complete!

Petrova, Radolina R.P. 2 days ago

- What have I done until now
Finished all tests, web sockets, updating documetation, created docker images and containers for the front end and database
- Impediments / things that you ran into
Docker integration
- Feedback from the meeting
Good unit tests, finish building the container for the back end
- What I am going to do
Polish the quality of the code

Describe what goes well according to your teacher, what you should pay more attention to and what is your next step to achieve the learning outcomes...

Post Feedback

Checkpoint 14 Week 16 - Jaap 22-12-2022

Petrova, Radolina R.P. 2 days ago

- What have I done until now
All required functionalitites, unti testing and integration testing for one controller, partial implementation of web sockets, document updating
- Impediments / things that you ran into
Designing user-friendly application, covering all possible flows of the tests
- Feedback from the meeting
Use AAA commenting on the tests, convert data from json to objects in the integration tests, make a chart for most listened songs
- What I am going to do
Finish implementation of web sockets, front end testing, start working on docker

Describe what goes well according to your teacher, what you should pay more attention to and what is your next step to achieve the learning outcomes...

Checkpoint 13 Week 15 13-12-2022

 No feedback submitted.

Geurts, Jaap J. (Teacher) a month ago

Keep up your work tempo or even step it up a notch to be able to pass the semester! If you put in extra effort over the holiday you may even end up with a good result at the end.

Checkpoint 12 Week 14 - Bart 07-12-2022

Petrova, Radolina R.P. a month ago

- What have I done until now

Functionalities related to filtering of data, I fixed the issues related to inserting records in join tables and their conversion between the layers, fixing the workflow in the front end

- Impediments / things that you ran into

Implementation of a functionality with web sockets

- Feedback from the meeting

Add integration testing and use RuntimeExceptions in the unit testing

- What I am going to do

Replace the general exceptions, add integration testing, add more functionalities

Checkpoint 11 Week 13 - Jaap 01-12-2022

Geurts, Jaap J. (Teacher) a month ago

Application good progress. Design document fine. Make sure CI is working and shows passing stages.

Petrova, Radolina R.P. a month ago

- What have I done until now

Implemented some CRUD functionalities, added the converters between the layers

- Impediments / things that you ran into

Inserting records in join table and converting the entities

- Feedback from the meeting

Continue working on the functionalities, add an issue board, add table with the uri's in the design document

- What I am going to do

Add more unit testing, improve the code in the front end, add more data filtering related functionalities

Checkpoint 10 Week 12 - Bart 23-11-2022

Petrova, Radolina R.P. 2 months ago

- What have I done until now

Implemented some unit testing, almost finished with authorization and authentication

- Impediments / things that you ran into

Authentication and authorization, conversion of objects between the layers

- Feedback from the meeting

Finish deliverables for the sprint

- What I am going to do

Finish deliverables for the sprint(documentation, UX Feedback report)

Checkpoint 9 Week 11 - Jaap 17-11-2022**Geurts, Jaap J.** (Teacher) 2 months ago

Good questions today that demonstrate understanding of database and ORM usage.

**Petrova, Radolina R.P.** 2 months ago

- What have I done until now

Started implementing authorization and authentication

- Impediments / things that you ran into
Authorization and authentication- Feedback from the meeting
Convert objects in different layers- What I am going to do
Finish working on my documentation**Checkpoint 8 Sprint 3 review - Bart** 09-11-2022**Rabeling, Bart B.T.** (Teacher) 2 months ago

Some stuff was still missing from sprint 3. Understanding is good enough, but progress really needs to speed up.

**Petrova, Radolina R.P.** 2 months ago

- What have I done until now

I was researching how to best work with hibernate and implemented some functionalities,

- Impediments / things that you ran into
I had difficulties with hibernate and SonarQube- Feedback from the meeting
Work on the documentation (C4 needs updating, description of the technologies I am using), include usage of aggregated data and finish setting up SonarQube- What I am going to do
Implement authorization and authentication, update my documentation, start working on the unit testing**Checkpoint 7 Week 9 - Jaap** 03-11-2022**Petrova, Radolina R.P.** 2 months ago

- What have I done until now

I have connected my application to a local database, external API and the back end is connected to the front end

- Impediments / things that you ran into
I had difficulties with the connection to the API- Feedback from the meeting
Work on the connection to the front end- What I am going to do
Continue working with the database

Checkpoint 6 Week 8 - Jaap 20-10-2022

 No feedback submitted.

Geurts, Jaap J. (Teacher) 3 months ago

Still working on adding functionality. I expect database with entities connected with API and frontend working after the break.

Checkpoint 5 Sprint 2 - Week 7 - Jaap 13-10-2022

Geurts, Jaap J. (Teacher) 3 months ago

Make sure that you think through your product and that your application supports at least 3 core entities(i.e. not ancillary entities such as user or cross-link tables)

Petrova, Radolina R.P. 3 months ago

- What have I done until now

I have connected my front end and back end, getting information from the backend and showing it, i am using routing and I have started designing my website.

- Impediments / things that you ran into

I had difficulties with my design and I continue to do so :)

- Feedback from the meeting

Make my research document more readable, add API style referencing and make the conclusion clearer.

- What I am going to do

Start working on the deliverables for Sprint 3 and work on the feedback.

Checkpoint 4 Week 06 - Bart 05-10-2022

Petrova, Radolina R.P. 3 months ago

- What have I done until now

I am calling the get operations from the frontend.

- Impediments / things that you ran into

I had difficulties displaying all the content on the page.

- Feedback from the meeting

Start working on the documentation.

- What I am going to do

Start working on the documentation.

Checkpoint 3 Sprint 1 review 21-09-2022

Rabeling, Bart B.T. (Teacher) 4 months ago
Please copy and answer the following questions:

- What have I done until now
...
- Impediments / things that you ran into
...
- Feedback from the meeting
...
- What I am going to do
...

Petrova, Radolina R.P. 4 months ago

1. What have I done until now:
- I have started my documentation and have added project backlog. I have done my first setup of Restful API's and have initialized the CI/CD environment in my git lab.
2. Impediments
- I had difficulties setting up the CI/CD environment, but I got help from my colleagues.
3. Feedback from the meeting
- To ensure that the controller is the only one dealing with responses and requests, as well as to add a small paragraph to my documentation about how I will ensure the project quality.
4. What I am going to do
- Apply the feedback on my project and start working on the deliverables for Sprint 2.

Checkpoint 2 14-09-2022

Petrova, Radolina R.P. 4 months ago

1. What I did this week?
- I started working on the documentation for the individual project and finished the assignments from the lessons.
2. Did I meet any difficulties?
- Deciding what documentation is important for the project.
3. What the feedback was?
- I have to add estimation points in my project backlog, as well as make the user stories smaller and more detailed. I also have to write a description of the way I am going to ensure the product quality.
4. What am I going to do?
- Finish the documentation for the first sprint and the setting of the REST API's.

Checkpoint 1 Week 2 - Jaap 08-09-2022

Petrova, Radolina R.P. 4 months ago

1. What I did this week?
- I came up with idea for the individual project and worked on the given assignments regarding the new things we learned.
2. Did I meet any difficulties?
- I had some understanding the content, while doing the assignments from the lessons, but managed to overcome them.
3. What the feedback was?
- My idea is suitable for the project requirements and I should start working on the project documentation.
4. What am I going to do?
- Start working on the project documentation for week 3
